

## ABOUT US

**Atlantic Drives and Bearings is an employee owned company in the industrial marketplace.**

Since our inception in 1996, the company has served OEM and MRO customers in virtually every industry. We are a single source supplier representing a comprehensive portfolio of bearings and power transmission equipment. In addition, we provide an array of services including engineering and system design, as well as inventory management and training. We are committed to understanding your demands and meeting those requirements with the most innovative technology and products in the industry.

With an experienced sales force that offers on-site technical support, we are able to offer dependable solutions to a myriad of mission critical applications. By exceeding your expectations through excellence in quality and service, Atlantic Drives has secured its position as an industry leader.
